

# RADIO BASE STATION MATRIX

Combine your radio with a reliable, quiet ICT power supply and custom fitted cover to create an attractive space-saving base station. This Base Station Matrix will help you select the right cover for your radio, find a matching power supply, or select an ICT Complete Station that includes cover and power supply. Our recommendations are based on the maximum rating of the radio, but you may select a higher or lower output power supply (where available) as shown to best meet your band or usage requirements.

Use this Matrix to find the model number for the cover that matches your radio, then find the matching desktop power supply or a complete base station consisting of cover and power supply. (Some radios are offered with more than one cover model number. This is for cases where you may want to choose a higher output power supply that may have larger physical dimensions).

ICOM RADIO MODEL	Model Number – Radio Cover Only	Recommended Power Supply Model	Recommended Complete Station Model Number	Higher Power Supplies To Fit This Cover or Complete Station
F320, F420, F520, F620	BASE-IC01	ICT22012-12AX	CS220-12AX/IC01
